

# ARIS KAMPAS

## UI / UX & WEB DESIGNER

I love to solve problems: Personal, Design, or Product ones. Nothing is too small or too big to explore different solutions. To accomplish this, I draw from user experience, product & project management knowledge I gained over the years.

I love finding ways to simplify complex products, make efficient and delightful experiences through user testing, and increasing product usefulness by improving its accessibility.

- WORDPRESS
- HTML / CSS

### TOOLS

### LANGUAGES

- English
- Danish
- Greek

### INTERESTS

- OIL PAINTING
- ARTS & CRAFTS
- READING
- PHOTOGRAPHY
- OLD THINGS

## WORK EXPERIENCE

### SUSTAINARY (Sep 2018 - Present) UX/UI & WEB Designer

I created the company's website, defining the company's branding style and the production of marketing material. My team and I successfully designed **three SDG Tech Awards**, the **Green Impact Week 2021**, and the **Green Crowdfunding and Crowdlending accelerator programs**.

### aMazy.dk (June 2020 - Oct 2020) WEB Designer & Wordpress/Woo-commerce Developer

I designed the company's website on Wordpress/Woo-commerce/Flatsome, I migrated the e-shop's content from Prestashop, I created the pages and content and set up the inner workings of the front-end and the back-end. I also made tests to ensure the **best possible User Experience**.

### YOSTOCKS (Sep 2018 - Jan 2019) Mobile UI Designer

I designed the alpha prototype for user testing and concept validation for this **fractional stock exchange trading platform** project.

## ADDITIONAL PROJECTS

### GOVO UX/UI DESIGN

In this school project I designed the GOVO mobile app. I became familiar with all the aspects of UX/UI Design, namely surveys and interviews, market research, personas and user flows, site maps Information Architecture and card sorting, wireframes and prototypes, usability tests, final mockups, deliverables and creating a design language system.

### REALTY FINDER UI DESIGN

In this school project, I designed a responsive web app that provides property buyers with information on properties of interest. My project focused on responsive layouts, design patterns and principles, creating a style guide, use of shapes and icons, color theory, typography and imagery.

## EDUCATION

**Certification Program in UX DESIGN**  
CareerFoundry (2017)

**Studies in BANKING & FINANCE**  
University of Piraeus Dep. of Banking & Financial Management

**Bachelor in ACCOUNTING**  
Piraeus University of Applied Sciences
