UX/UI PROFILE

Over 4+ years of full-stack UX/UI experience, delivering positive organisational outcomes through UX/UI design. I am confident in my ability to help users and collaborate with cross-functional teams to solve complex, high-stakes problems and I am committed to continuous improvement and team success.

UX/UI WORK EXPERIENCE

UX/UI Designer at Sustainary *(Copenhagen, Sep 2018 - Aug 2022)*

With Sustainary I had the responsibility for the design of company's websites as well as the design for the marketing material.
For these projects I was responsible for
- **Wireframing and prototyping** in Figma**, UX/UI and Web design**.
- **Defining the design style** and making sure that all teams remain in alignment.
- Aligning company needs with **user needs** through **user testing**, questionnaires and proper assessment of the findings.
- **Information Architecture.**
- Digital Design **team Lead**.

Those projects include among others:
- The Green Impact Week
- The SDG Tech Awards
- The Green Impact Assessment
- The Sustainable Fast-Track UK Program
- The Cloud Hub
- Green Crowdfunding Accelerator
- Green Crowdlending Accelerator

I was able to successfully lead the design team to create professional and user-friendly websites that met the company's goals and requirements. The websites have been well-received and has helped to improve the online presence of the organisation.

UX/UI WORK EXPERIENCE

UI Designer at Yostocks *(Copenhagen, Sep 2018 - Jan 2019)*

Yostocks was an application that allowed users to trade in fractions of stocks. I was responsible for **designing** the alpha version of the **mobile app** for **user testing** and concept validation.
I was involved in the following
- Defining the **design style** and the **Information Architecture**.
- **Wireframing and prototyping** in Sketch and Invision**.**
- **User testing** and feedback evaluation.

UX & Web Designer at Lars Christian Kræmmer *(Copenhagen, May 2021 - Jul 2021)*

I applied well defined UX & Web practices to create within an already existing website an e-commerce component.
My tasks were mainly the following:
- Applying the existing **design style** within an improved **Information Architecture**.
- Designing an **E-commerce component** in the website, with the company's **unique** checkout and payment **requirements**.

UX/UI & Web Designer at aMazy.dk *(Copenhagen, Jun 2020 - Oct 2020)*

I was able to successfully design and develop a new web-shop for aMazy.dk. The website has been well-received and has helped to improve the company's online presence and sales.
I worked on:
- **Designing** and developing the new web-shop.
- Ensuring that the new web-shop was **user-friendly**, **accessible** and provided a seamless **shopping experience** for customers.
- **Testing** the website to ensure that it was functioning properly.

UX/UI COURSE EXPERIENCE

UX/UI Designer for GOVO

GoVo was a unique mobile app that connects energetic volunteers with lonely elderly individuals. I fully designed the mobile app from concept to deliverables as part of my course at CareerFoundry.

UI Designer for RealtyFinder

RealtyFinder was a real estate web app I designed as part of my CareerFoundry course.
